Hello Michael,

I hope you are doing great.

Thanks again for assisting with the membership process into the iab Tech Lab. It sounds like you and your team made Dror's inclusion relatively seamless; and we really appreciate that.

We understand that the Tech Lab recently announced the publication of another draft Specification. Sounds like potentially exciting progress. Because we just joined the Tech Lab—and also because we could not have possibly contributed to that draft Specification—any Exclusion Notice under Tech Lab's IPR Policy appears to be unnecessary.

However, to err on the side of safety, and in an abundance of caution, we decided to provide an Exclusion Notice anyway. So, attached is a list of the applicable patents/applications that **may** contain **Necessary Claims**. For any applications, this exclusion would apply to the entirety of the proposed OpenRTB 2.6 Specification.

Please let us know if this should be passed along to any other Tech Lab working group administrators.

And if you have any questions or issues you would like to discuss, we'd be happy to do that.

Thank you.
Reza
